## Coring a Balky Horse,

On Thursday a man came into the Sun office with the worst looking head on him that ever was seen outside of Deconomovoe. His eyes were both more exact and uniform than in this blackers, there was a cut across the On Thursday a man came into the blackened, there was a cut across the asset, one car was stack on with court plaster, one car was stack on with court plaster, one car was in a sling, sed he ased a pair of crutches. He hobbled in the door of the blue room, and asked if the editor was in, and on being told that the great prevarieator stood before him, in spit on his hands, grabbed a crutch deficient formaces which are instell as two its and No. 3° are in spit on his hunds, granted a crutch as one would a club, looked wild, and sacepted an invitation to set down on the sofa. He sat down reluctantly as though it burt, and after laying his crutches on the floor, and feeling of his ear to see if it was on yet, he said:

"About three weeks are you had an in spit on his hands, grabbed a crutch

has made a selection of twenty of his father' poems, which he will illustrate. The subjects are mostly landscapes, and the pictures will be made of the scenes themselves.—N. F. Post.

— Don Piatt is living quietly on his greatly from an affection of the liver, and as this prevents his participation in a big dinner occasionally, his life is anything but a pleasant one.—Caseage Meers.

bit, and when a horse balked the instanton of the cachange, say 1,000 tons of No. 1 pig for October delivery, was purely a transaction in token. No actual delivery was contemplated. The whole thing was simply a bet. The seller but the buyer that the peice would be lower member such an item?

The ditor Stratched the bald spot on his head, looked wise, and said he did remember something about it, and asked the visitor if he had purchased a battery and tried it.

and tried it.

"Tried it." said he, as he picked up one of the crutches and fixed the splints on his sprained arm, "Look at me! "There are others?"

"There are others?" John A. Campbell, of New Orleans, is regarded by many as the first of American lawyers. He is a very old man, and was on the beach of the United States Supreme Court when the war broke out, and he went with the Confederates. He lives very quietly, surrounded by one of the firest law libraries in all languages in the world. — Chicago Journal.

—Annie Louise Cary seems to be in here and manl you. I live out near cayo Journal.

—Annie Louise Cary seems to be in here and manl you. I live out near Eagle, and have got an old mare that has been balky off and on for sixteen vears. I have traded her off more than the domestic product. The result of this condition is evident."

"What will the effect on the market was marging he?" of large dealings in these margins he?"
"Well, if the outside public goes in very largely on this sort of thing the inimediate result will probably be a rise in the market and an increase in actual "What will be the ultimate result?" 'The demand will soon prove ficti-tions. You see, only so much iron can be actually used. The tailor and milliner will soon begin to unload their sham ourchases, and then will follow a sudden fall in quotations, consequent upon its surplus stock, and the effect upon anything in the world, for two reasons. First, I have always found your paper a truthful one, and second, electricity gured me of inflammatory rheumatism, which was worse than any halky horse

the furnaces will be disastrous. All the time, however, the brokers will have been swelling their pockets with doubleended commissions upon paper sales and purchases, and they can laugh at you ever saw. Well, I got almost to the cheese factory, and the old mare balked. She had balked there before, enforced blow-outs. "When did you become interested in this thing?" I asked. and all the neighbors and the hands at "Only a short time ago, and I determined to investigate the history of the New York Metal Exchange, which I think the public will be interested in. "Does from vary much in price?" "Very widely at times," was the re-"Last week it advanced \$1.50 per

ton. Between August, 1879, and February, 1880, it advanced one hundred per cent, and the next three months "The necessity of a stricter classifiction of pig-iron will be necessary," conmy foot was on the button. O. how she kicked. I forgot to take my foot off systematic the botton, in the excitement, and in. It will be necessary to know, when

"What do seats in this exchange and red: "ffecause it's headquarters." — strength of a hundred norse, and seemed to me as though the whole conveyance, horse and all, went over the traces as though carried by a cyclone.
